What's New in the Second Edition

The first edition collected 536 prompts. This edition keeps every one of them, word for word and in the same order, and adds **1,750 new prompts** in 70 new bundles, for a total of **2,286**.

New bundles follow the originals in each part and are marked **NEW** in their heading, so you can see at a glance what has been added.

- **Part One — Camera Shots: +550 prompts in 22 new bundles.** Push-ins, pull-back reveals, lateral slides, pedestal moves, arcs, dolly zooms, rack focus, long takes, overheads, ground rigs, pass-throughs, reflections, silhouettes, telephoto and wide-angle looks, vehicle rigs, FPV flights, motion time-lapse, whip pans, symmetry, deep focus and underwater camera work.
- **Part Two — Video Feel: +550 prompts in 22 new bundles.** Motivated light, natural light, monochromatic and complementary palettes, 25 named film stocks, decade looks, atmospherics, night palettes, dreamlike, gritty, horror, romantic, sci-fi, anime, painterly, miniature, glitch, black-and-white, seasonal, optical light effects, luxury polish and music-video aesthetics.
- **Part Three — Scene Prompts: +650 prompts in 26 new bundles.** World cities, natural wonders, space, oceans, weather, ruins, cyberpunk, fantasy, mythology, ancient epics, westerns, noir, thrillers, comedy, romance, family, work, architecture, journeys, festivals, products, street food, extreme sports, mystery, timeline sequences and vertical social video.

Prompts in the new bundles follow the same formula as the first edition: the camera move first, then the subject and action, then light and style. In Part One the camera technique is the star of each bundle. In Part Two the look is fixed for each bundle. Part Three combines everything into complete scenes.

How to Use This Manual

This manual collects **2,286 ready-to-paste prompts** for AI video generators, organised into three parts that mirror how a director thinks about a shot:

- **Part One — Camera Shots.** Shot sizes, angles, movement, lenses, aerials, cranes, POV and transitions. Use these to learn and lock down the camera language.
- **Part Two — Video Feel.** Lighting, color grades, film stocks, genre looks, animation styles, mood, weather and time manipulation. Use these to control how footage *feels*.
- **Part Three — Scene Prompts.** Complete scenes across worlds, action, macro, character, product, nature, sci-fi, fantasy, horror, food, sports, music, period, everyday life, timeline sequences and vertical social video.

Every prompt stands on its own. Copy it as-is, or treat it as a template: keep the camera and light language and swap in your own subject.

The Prompt Formula

The strongest prompts in this manual follow the same order. Models weight early words most, so lead with the shot and the subject.

1	Shot + camera	Slow dolly in, low-angle tracking shot, drone rising...
2	Subject	A lighthouse keeper, a matte-black supercar, a snow leopard...
3	Action	Reading a letter, drifting through a corner, stalking prey...
4	Setting	Rain-streaked window at night, Icelandic black-sand beach...

5	Light + color	Golden-hour backlight, neon noir, teal-and-orange grade...
6	Style + format	35mm film grain, anamorphic 2.39:1, claymation, 9:16 vertical...

Example, built with the formula:

Slow dolly in → on an elderly clockmaker → tightening a tiny gear with tweezers → in a cluttered workshop at night → lit by a single green desk lamp, warm amber grade → 35mm film grain, shallow depth of field.

Ten Rules That Make Prompts Work

- One camera move per clip. Chain clips for complex moves instead of stacking three in one prompt.
- Say *dolly* when you want parallax and *zoom* when you want optical magnification — models treat them differently.
- Name where the shot lands: “ending on the castle,” “land on the open doorway.” An end frame prevents drift.
- Give moving subjects a direction of travel so camera and subject agree.
- Describe light by source, direction and quality: “hard side light from a window,” not just “good lighting.”
- Use one clear emotion and one clear action for performances. Too many beats blur the acting.
- Ask for *subtle* handheld sway. Heavy shake often reads as a glitch.
- For timeline prompts, keep beats 1–3 seconds apart and describe each beat visually.
- For vertical video, say “framed for vertical 9:16” and keep the subject centered with vertical motion.
- Use negative prompts (see the appendix) to remove competing motion such as unwanted zoom or camera shake.

Mixing Across Parts

The three parts are designed to combine. Take the camera move from a Part One prompt, the look from a Part Two prompt and the scene from a Part Three prompt:

Part One: Rack-focus shot → Part Two: shot on CineStill 800T, red halation around the lights → Part Three: a detective eating noodles at a neon-lit street counter as rain pours.

Combined prompt:

Rack-focus shot from raindrops on a noodle-bar window to a detective eating at a neon-lit street counter as rain pours, shot on CineStill 800T, red halation glowing around the lights.

PART ONE

Camera Shots

Prompts 1–702 · 34 bundles · 550 new in this edition

Framing, angles, movement and lens language. Name the shot and the move first; the model builds everything else around them.

Shot Sizes • Camera Angles • Pan & Tilt • Dolly & Truck • Zoom & Lens • Tracking & Follow • Orbit & Arc • Drone & Aerial • Crane & Jib • Handheld, POV & Body Cams • Specialty Shots • Transitions & Connective Shots • Push-In Moments • Pull-Back Reveals • Lateral Slides • Pedestal & Elevation • Arc Shots • Dolly Zoom • Rack Focus • Long Takes & Oners • Overhead & God's Eye • Ground-Level & Low Rigs • Through Objects • Reflections & Mirrors • Silhouettes & Shadow Play • Telephoto Compression • Wide-Angle & Fisheye • Car & Vehicle Rigs • FPV Flights • Motion Time-Lapse • Whip Pans & Crash Zooms • Symmetry & Centered Framing • Deep Focus & Split Diopter • Underwater & Split-Level Camera

BUNDLE 1 · PROMPTS 1–14

Shot Sizes — Framing Scale

The distance between lens and subject sets how intimate or epic the moment feels. State the size before anything else.

Prompt 1 — Extreme Wide Establisher

Extreme wide shot of a lone lighthouse on a black basalt cliff, the Atlantic stretching to the horizon, tiny figure walking the path, overcast silver light, cinematic 2.39:1 framing.

Prompt 2 — The Wide Shot

Wide shot of a farmer standing in the middle of a golden wheat field at sunset, full body visible with the whole field around him, gentle wind rippling the stalks, static camera.

Prompt 3 — Full Body Hero

Full shot of a ballet dancer in a white tutu standing en pointe on an empty theater stage, a single spotlight overhead, head-to-toe framing, dust floating in the beam.

Prompt 4 — The Cowboy Shot

Medium-full cowboy shot framed from mid-thigh up, a gunslinger in a dusty duster coat with his hand resting near his holster, desert town street behind, harsh noon sun.

Prompt 5 — Medium Shot Conversation

Medium shot of a barista in a cozy cafe, framed from the waist up, pouring latte art and glancing up with a warm smile, soft window light, shallow depth of field.

Prompt 6 — Medium Close-Up Confession

Medium close-up of a young woman sitting on a train, framed from the chest up, rain streaks on the window beside her, passing city lights reflecting across her face.

Prompt 7 — The Close-Up

Close-up of an elderly fisherman's weathered face, deep wrinkles and salt-crusted beard, eyes squinting at the sea, golden hour side light, 85mm lens.

Prompt 8 — Extreme Close-Up Eye

Extreme close-up of a human eye, iris filling the frame, the reflection of a burning city visible in the pupil, slow blink, macro detail of eyelashes.

Prompt 9 — Insert Detail

Insert shot of trembling fingers turning an old brass key in a lock, macro detail on scratched metal, the click as it turns, warm tungsten light.

Prompt 10 — Two-Shot Tension

Two-shot of two chess players facing each other across a board in a smoky park pavilion, both faces in frame, neither moving, only the ticking clock between them.

Prompt 11 — The Group Shot

Wide group shot of five astronauts standing shoulder to shoulder on a launch gantry, rocket towering behind them, steam venting, dawn light, heroic symmetrical framing.

Prompt 12 — Over-the-Shoulder

Over-the-shoulder shot from behind a detective's shoulder looking at a suspect across an interrogation table, harsh overhead fluorescent light, blurred shoulder in the foreground.

Prompt 13 — Single With Negative Space

Medium shot of a man sitting alone on a park bench placed far left in the frame, vast empty snowy park filling the right two-thirds, muted blue palette, static camera.

Prompt 14 — The Choker

Choker close-up framed from just below the chin to mid-forehead, a boxer between rounds, sweat dripping, breathing heavily, corner lights blazing behind.

BUNDLE 2 · PROMPTS 15–28

Camera Angles — Point of View & Power

Angle tells the audience who holds the power. Height and tilt of the lens change the story without changing the scene.

Prompt 15 — Eye-Level Honesty

Eye-level shot of a child holding a paper boat at the edge of a puddle, camera at the child's height, neutral and intimate, overcast soft light, static frame.

Prompt 16 — Low-Angle Titan

Low-angle shot looking up at a towering armored knight standing on a castle rampart, storm clouds swirling behind, banners whipping in the wind, heroic scale.

Prompt 17 — High-Angle Vulnerability

High-angle shot looking down on a small girl standing alone in the center of a vast marble train station hall, commuters streaming around her, cold morning light.

Prompt 18 — Bird's-Eye Pattern

Top-down bird's-eye view of colorful umbrellas moving across a rainy city crosswalk, perfectly overhead, geometric composition, slow crowd motion.

Prompt 19 — The God's-Eye Aerial

Directly overhead god's-eye shot of a single red canoe gliding across a mirror-still turquoise lake, ripples trailing behind, camera slowly rising.

Prompt 20 — Worm's-Eye View

Worm's-eye view from the ground looking straight up at a skateboarder jumping over the lens, blue sky behind, wheels spinning, fisheye distortion.

Prompt 21 — The Dutch Angle

Dutch angle tilted 25 degrees, a nervous man in a dim hotel hallway checking over his shoulder, flickering sconce lights, unsettling off-balance framing.

Prompt 22 — Ground-Level Racer

Ground-level shot with the lens inches above wet asphalt as a vintage race car roars past, water spraying toward the camera, motion blur, low sun flare.

Prompt 23 — Hip-Level Standoff

Hip-level shot of two gunfighters' hands hovering over their holsters in a dusty street, tumbleweed rolling between them, spaghetti western tension.

Prompt 24 — The Shoulder-Level Neutral

Shoulder-level shot of a nurse walking down a hospital corridor at night, steady and observational, cool fluorescent light, soft ambient beeps implied.

Prompt 25 — Overhead Tabletop

Overhead flat-lay shot of hands kneading bread dough on a floured wooden table, flour dust rising, warm kitchen light, rhythmic motion.

Prompt 26 — Knee-Level Canine

Knee-level shot following a golden retriever trotting through an autumn park, leaves scattering, camera at the dog's eye height, cheerful warm tones.

Prompt 27 — Aerial Oblique

Oblique aerial shot at a 45-degree angle over a terraced rice field in Bali, farmers in conical hats working below, morning mist in the valleys.

Prompt 28 — Canted Chase

Canted frame, handheld and tilted, a courier sprinting through a crowded Hong Kong street market at night, neon signs smearing, chaotic energy.

BUNDLE 3 · PROMPTS 29–40

Pan & Tilt — The Tripod Moves

The camera stays planted and only rotates. Perfect for reveals, following action, and grounding a scene.

Prompt 29 — The Slow Reveal Pan

Slow pan right across a misty Scottish glen at dawn, revealing a ruined castle on a loch, horizon level, smooth constant rotation, landing on the castle.

Prompt 30 — Pan to Follow

Pan left following a vintage steam train crossing a stone viaduct in the Highlands, white smoke trailing, camera rotating from a fixed hilltop position.

Prompt 31 — Whip Pan Energy

Whip pan from a jazz saxophonist to the drummer on a smoky club stage, brief motion blur, landing sharply on the drummer mid-fill.

Prompt 32 — Tilt Up Reverence

Tilt up from the worn stone steps of a gothic cathedral to its twin spires piercing the clouds, pigeons scattering, overcast dramatic sky.

Prompt 33 — Tilt Down Discovery

Tilt down from a starry night sky to a lone campfire in a desert canyon, a traveler warming their hands, ember sparks drifting upward.

Prompt 34 — The Survey Pan

Slow 180-degree pan across a futuristic spaceport terminal, travelers with luggage, holographic departure boards, ships launching through the glass wall behind.

Prompt 35 — Tilt Up Skyscraper

Tilt up the glass facade of a 100-story skyscraper from street level to its spire, reflections of clouds sliding across the windows, midday sun.

Prompt 36 — Reaction Pan

Pan from a shattered vase on the floor to a guilty-looking cat sitting on the shelf above, comedic timing, soft afternoon living room light.

Prompt 37 — The Nodal Pan Landscape

Smooth nodal pan across the Grand Canyon at golden hour, layered red ridgelines, shadows stretching, no parallax, crisp detail.

Prompt 38 — Swish Pan Transition

Fast swish pan away from a bride at the altar, blur, landing on the groom's nervous face at the end of the aisle, soft church window light.

Prompt 39 — Tilt Down to Feet

Tilt down from a runner's determined face to their worn sneakers on the starting line of a track, stadium lights, breath visible in cold air.

Prompt 40 — The Pan and Hold

Pan right across a quiet library reading room and stop on a single student asleep on a pile of books, desk lamp glowing, hold still for three seconds.

BUNDLE 4 · PROMPTS 41–53

Dolly & Truck — The Rail Moves

The whole camera travels through space. Ask for parallax so the move reads as physical, not a zoom.

Prompt 41 — The Classic Push-In

Slow dolly in toward a woman sitting at a kitchen table reading a letter, her expression shifting from calm to shock, foreground cups passing in the frame.

Prompt 42 — Dolly Out Isolation

Slow dolly out from a man standing alone in an empty ballroom, chandeliers above, the room growing enormous around him, melancholy stillness.

Prompt 43 — Truck Left Lineup

Truck left along a line of soldiers standing at attention in the rain, each face passing one by one, camera facing forward, steady lateral glide.

Prompt 44 — Truck Right Storefronts

Truck right past a row of glowing Parisian storefronts at night, bakery, bookshop, flower stall, foreground lampposts creating parallax.

Prompt 45 — Push Through the Crowd

Dolly forward through a crowd of dancers at a masquerade ball toward a masked woman standing perfectly still at the center, candlelit gold tones.

Prompt 46 — The Slow Creep

Imperceptibly slow push-in on an old telephone ringing on a hallway table in a dark house, tension building, thin blade of moonlight.

Prompt 47 — Pull Back Reveal

Dolly out from a close-up of a child's drawing of a house to reveal the child sitting in the ruins of a real bombed-out building, dusty light.

Prompt 48 — Lateral Parallax Forest

Truck right through a dense birch forest, white trunks sliding past at different speeds in the foreground, a deer standing in a clearing beyond.

Prompt 49 — Pedestal Up Reveal

Pedestal up from behind a kitchen counter to reveal a chaotic surprise birthday party, lens staying level, confetti in the air.

Prompt 50 — Pedestal Down to Eyeline

Pedestal down from a high view of a crowded courtroom to eye level with a nervous defendant, lens level, wood-paneled walls.

Prompt 51 — Dolly In on Portrait

Slow push-in on an oil portrait in a dim manor hallway until the painted eyes fill the frame, then the eyes subtly move.

Prompt 52 — The Moving Two-Shot

Tracking dolly alongside two old friends walking and laughing on a beach boardwalk at sunset, parallel movement, sea breeze in their hair.

Prompt 53 — Reverse Dolly Walk

Reverse dolly in front of a CEO striding through an open-plan office, employees looking up as she passes, confident pace, glass walls.

BUNDLE 5 · PROMPTS 54–67

Zoom & Lens — Optical Tricks

Zooms change focal length without moving the camera. Use the word zoom so the model doesn't invent parallax.

Prompt 54 — The Slow Zoom Tension

Slow zoom in on a poker player's face as he looks at his cards, casino chatter blurred behind, sweat forming at his temple.

Prompt 55 — Crash Zoom Comedy

Crash zoom in on a chef's horrified face as the souffle collapses in the oven, snappy 1970s kung-fu movie energy.

Prompt 56 — Snap Zoom Out Context

Fast zoom out from a man happily sunbathing to reveal he is on a tiny island the size of a car in the middle of the ocean.

Prompt 57 — The Dolly Zoom

Dolly zoom vertigo effect on a man at the edge of a rooftop, background stretching away while his face stays the same size, disorienting.

Prompt 58 — Rack Focus Handoff

Rack focus from raindrops on a window in the foreground to a figure standing in the street outside holding an umbrella, shallow depth of field.

Prompt 59 — Rack Focus Reveal

Close-up of a wedding ring on a nightstand in sharp focus, then rack focus to a woman in the background sitting on the bed, crying softly.

Prompt 60 — Split Diopter Split

Split diopter shot, a spider in sharp focus in the extreme foreground left and a frightened man in sharp focus in the background right, 1970s thriller look.

Prompt 61 — Telephoto Compression

600mm telephoto shot of a runner on a heat-shimmering desert highway, compressed perspective making the mountains loom behind, heat haze.

Prompt 62 — Wide-Angle Distortion

14mm ultra-wide shot of a street performer juggling fire right in front of the lens, exaggerated perspective, crowd curving at the edges.

Prompt 63 — Fisheye Skate

Fisheye lens shot following a skateboarder grinding a rail in an empty concrete skate park, curved horizon, 1990s skate video look.

Prompt 64 — Anamorphic Flare

Anamorphic lens shot of a car's headlights approaching on a foggy night road, long horizontal blue lens flares, oval bokeh, 2.39:1 widescreen.

Prompt 65 — Tilt-Shift Miniature

Tilt-shift shot of a busy harbor with cranes loading containers, narrow band of focus making everything look like a toy miniature, time-lapse.

Prompt 66 — Macro Lens Push

Macro lens slowly pushing toward a watch mechanism, tiny gears turning, jewels glinting, ultra-shallow focus plane sliding across the parts.

Prompt 67 — Soft Focus Dream

Vintage soft-focus lens, a woman in a flower crown in a sunlit meadow, blooming highlights, glowing halation, dreamy 1970s portrait feel.

BUNDLE 6 · PROMPTS 68–79

Tracking & Follow — Moving With the Subject

Keep the camera locked to the subject's path. State the direction of travel so the model and subject agree.

Prompt 68 — Follow From Behind

Follow shot from behind a teenager on a bicycle racing down a hill through a suburban street, shoulder height, summer evening glow, trees flashing past.

Prompt 69 — Side Tracking Sprint

Side tracking shot alongside a racehorse at full gallop on a misty morning track, jockey crouched low, clods of dirt flying, parallel movement.

Prompt 70 — Leading Walk-and-Talk

Reverse tracking shot in front of two detectives walking through a precinct, talking intensely, officers moving past behind them, constant distance.

Prompt 71 — Low Tracking Paws

Low tracking shot at ground level following a fox's paws padding through fresh snow in a pine forest, soft blue morning light.

Prompt 72 — Tracking Through Doors

Continuous tracking shot following a waiter carrying a tray through a busy restaurant kitchen, through swinging doors, into the elegant dining room.

Prompt 73 — Car-to-Car Tracking

Camera-car tracking shot alongside a classic red convertible driving a coastal cliff road, driver's hair blowing, ocean glittering below.

Prompt 74 — The Chase Follow

Fast follow shot behind a parkour runner vaulting over rooftop ledges in a favela, handheld energy, sun low on the horizon.

Prompt 75 — Tracking Profile Swimmer

Side tracking shot at water level beside a swimmer doing freestyle in an open-air pool, half above and half below the waterline.

Prompt 76 — Following the Object

Tracking shot following a paper airplane gliding down a school hallway, weaving past students, landing at the feet of a surprised teacher.

Prompt 77 — The Oner Entrance

Long unbroken tracking shot following a rock star from the dressing room, down a backstage corridor, up the stairs, onto a roaring stadium stage.

Prompt 78 — Tracking the Horse Herd

Low side tracking shot racing alongside wild horses galloping across an Icelandic black sand plain, manes flying, dust and spray.

Prompt 79 — Steadicam Glide

Smooth Steadicam shot gliding behind a bride as she walks through a garden archway toward her wedding ceremony, petals drifting.

BUNDLE 7 · PROMPTS 80–91

Orbit & Arc — The 3D Hero Moves

Circling a subject shows every side and makes it feel important. Name the arc length to stop the model overshooting.

Prompt 80 — Full Hero Orbit

Clockwise 360-degree orbit around a samurai standing motionless in a bamboo forest, katana drawn, leaves swirling around him, constant radius.

Prompt 81 — Half Orbit Reveal

180-degree orbit around a woman at a bus stop at night, starting behind her and ending on her face lit by the approaching bus headlights.

Prompt 82 — Slow Arc Dialogue

Slow quarter-arc left around two lovers about to kiss under a streetlight in the rain, background lights sliding behind them.

Prompt 83 — Orbit the Product

Smooth orbit around a luxury perfume bottle on a black mirror surface, light catching the glass facets, slow 360 turn, studio lighting.

Prompt 84 — Low Orbit Power

Low-angle orbit around a boxer standing in the center of the ring after a knockout, arms raised, crowd roaring, spotlight overhead.

Prompt 85 — Orbit With Rising Crane

Rising spiral orbit around a tree of life glowing in a dark fantasy forest, the camera climbing as it circles, fireflies swirling.

Prompt 86 — Tight Orbit Face

Tight orbit around a man's face as memories flash across his expression, background blurring into streaks of light.

Prompt 87 — Orbit Around the Table

Continuous orbit around a candlelit dinner table where a family argues, faces passing in and out of the foreground.

Prompt 88 — Counterclockwise Statue

Counterclockwise orbit around a marble Greek statue in a museum at night, moonlight through a skylight, dust motes in the air.

Prompt 89 — Orbit the Vehicle

Slow orbit around a matte-black supercar parked in an empty underground garage, overhead strip lights reflecting across its curves.

Prompt 90 — The Dancing Orbit

Camera orbiting two tango dancers as they spin, matching their rotation, the background blurring while the couple stays sharp.

Prompt 91 — Orbit in Zero-G

Orbit around an astronaut floating inside a space station module, Earth rotating in the window behind, cables drifting.

BUNDLE 8 · PROMPTS 92–104

Drone & Aerial — The Sky Moves

Aerials establish scale and geography. Specify altitude, direction and what the shot lands on.

Prompt 92 — Drone Rise Reveal

Drone rising slowly from behind a pine ridge to reveal a hidden alpine lake at sunrise, mist on the water, snowy peaks beyond.

Prompt 93 — Top-Down Drone Descent

Top-down drone descending straight down onto a surfer paddling through turquoise water, shadow on the sand below, waves forming patterns.

Prompt 94 — Aerial Flyover City

Aerial flyover of Tokyo at night at 300 meters, neon districts glowing, trains snaking between towers, slow forward glide.

Prompt 95 — Coastal Cliff Glide

Drone gliding along the edge of the Cliffs of Moher, waves crashing below, seabirds flying beneath the camera, overcast drama.

Prompt 96 — Drone Pull-Back Reveal

Drone pulling back and up from a hiker standing on a summit, revealing an endless sea of clouds below, sunrise light.

Appendix A — Negative Prompt Cheat Sheet

If your generator supports a negative prompt, rule out the motions that compete with the one you asked for. Pair each move with its negatives:

Static / locked-off	camera movement, zoom, pan, tilt, camera shake, handheld sway
Pan / tilt	dolly movement, zoom, camera shake, tilted horizon
Zoom	dolly movement, parallax shift, pan, camera shake
Dolly in / out	zoom, pan, tilt, orbit, change in height, camera shake
Truck / pedestal	pan, rotation, tilt, zoom, orbit, crane arc
Orbit / arc	zoom, change in radius, change in height, subject turning with camera, cuts
Tracking / follow	static camera, zoom, cuts, subject leaving frame, erratic shake
Rack focus	everything in focus, focus breathing, zoom
Dolly zoom	subject changing size, camera shake, cuts
Whip / crash zoom	slow pan, multiple zooms, blurry final frame, drifting framing
FPV / drone	jitter, horizon wobble, propeller in frame, sudden stops
Handheld	violent shaking, gimbal-smooth motion, zoom
Style looks	modern digital look, oversaturated, plastic skin (for film-stock and vintage prompts)
Any shot (quality)	warped hands, extra fingers, morphing faces, flickering, text artifacts, watermark, low resolution, jitter

Appendix B — Recommended Clip Lengths

Crash zoom, whip pan	2–4 seconds
Pan, tilt, truck, pedestal, static	4–6 seconds
Dolly, tracking, slow zoom, arc, rack focus	5–8 seconds
Full orbit, crane, drone reveal, dolly zoom	6–10 seconds
Long takes and oners	8–15 seconds, or chain clips
Timeline sequences	5–10 seconds, beats 1–3 seconds apart
